WELCOME TO WHEELING

*President
Patrick Horcher*

2022 State of the Village of Wheeling

In keeping with one of our annual traditions, I am honored to provide an update on the state of the Village. While the pandemic made 2021 frustrating for all of us in ways that require no explanation, I'm happy to report that the Village is coming through well, thanks largely to our community's resilience and adaptability. I'm grateful to the Village Trustees for finding ways to work together while advocating for their priorities and concerns. On their behalf I'd also like to thank our staff and our volunteer commissioners for their hard work, expertise, and good judgment throughout the past year.

Thanks to a number of factors—including better-than-expected revenues and our staff's careful management of costs—we finished 2021 with a budget surplus. Those improved revenues partly reflect strong private-sector activity, and although serious challenges remain in just about every industry, it's been inspiring to see Wheeling businesses bounce back with ingenuity and determination. Some of that private activity has included new development: the Uptown 500 mixed-use project, the Shell station / Cousins Subs on South Milwaukee Avenue, a new Atlantic Aviation hangar and customs facility at Chicago Executive Airport, and the Hatch cannabis dispensary were all substantially completed last year. Renovations have taken place as well, such as Richelieu Foods' multimillion-dollar expansion, the complete refurbishments of both Target and Walmart, and the remodeling and addition of a drive-through at Café Zupas. Other projects are underway or will soon begin, such as the London Crossing mixed-use development on the west side of town, the last retail pad by the Westin Hotel, Bill Stasek Chevrolet's renovation of their facility, the construction of the 53-Unit Union Apartments at the former Orange Crush site on Wheeling Road, and pending occupancies of the former Ram restaurant site by District Brew Yards, the former Golden Chef site by Yu's Mandarin, the former Le Francais by a new sit-down Polish restaurant, the former Dundee Dogs site by Pirosmeni Georgian Food Art, and the former Fannie May site by Crumbl Cookies. We've also seen the speculative industrial facilities recently built on Northgate Parkway and South Wolf Road achieve full occupancy, by Hidden Valley and FedEx respectively. As always, the Village has played a role in encouraging and shaping these developments, both through our zoning processes and through incentives like tax increment financing, Cook County tax abatements, and the Village's Restaurant & Retail Build-Out Grant when appropriate.

We also performed essential work that our community depends on the most: the maintenance and improvement of our infrastructure. The most visible example is the complete rebuild of Fire Station 23 on Wheeling Road, but we also accomplished a range of crucial improvements to roadways, water mains, and sewers, while coordinating with Cook County and the State of Illinois on the reconstruction of Lake Cook and Wolf Roads; the former is now largely complete, and the latter will be starting again as the weather allows. One critical improvement is particularly noteworthy: in 2021 the Village finished replacing the last of all lead supply lines in our water system, a project partly funded through the Illinois Public Water Supply Loan Program and done at no cost to the residents. This work was completed ahead of state mandates regarding lead line replacement, which are forthcoming. Speaking of being ahead of state mandates, the Police Department implemented body-worn cameras for its officers at the beginning of 2021, well prior to the deadlines set by the SAFE-T Act for the use of such cameras.

The Village always works proactively to identify opportunities to put state and federal dollars to work on behalf of our residents, and a big one arrived with the approval of the American Rescue Plan Act (ARPA), federal legislation that allocated over \$5.25 million that the Village can invest in the community subject to certain requirements. We plan to use it to achieve one of our longstanding goals: to relocate Fire Station 42 from the space it currently shares with the Police Department to a new freestanding facility on McHenry Road, from which crews will be able to respond even more quickly to emergency calls on the west side of the tracks. We expect to have some ARPA funds left over even after that large project, which we'll use to repair deteriorating portions of the water system; we've also been able to provide a portion of the funds to the Wheeling Park District to upgrade emergency communication equipment in the expanded Community Recreation Center. We anticipate that additional funds will become available through the Rebuild Illinois program for two other major projects, the reconstruction of a portion of Wheeling Road and improvements to Northgate Parkway; we're already completing the design phase for these projects, and we recently had Northgate reclassified as a minor arterial collector to qualify for funding. As always, we'll continue to seek new funding sources to expand our capacity to serve the community while reducing the burden on taxpayers.

WELCOME TO WHEELING

State of the Village continued

In order to take advantage of such opportunities our staff has to be nimble, and in order to be nimble they need clear guidance from the Village Board. To that end, in 2021 we updated the Village's Strategic Plan to account for the substantial changes that have taken place in Wheeling—particularly around the Metra station—since we developed the previous Plan in 2015. The update builds on the same core principles while identifying new priorities, and will provide us with a valuable roadmap toward a stable and prosperous future. One of the initiatives featured in the new Plan is promoting the continued vitality of Restaurant Row; as I mentioned in the last issue, the Village has retained a group of consultants to assess the strengths, challenges, and opportunities of the Milwaukee Avenue business community and to suggest strategies for improvement. Public input is an important component of the study, and I encourage everyone to participate at: www.thelakotagroup.com./projects.

Needless to say, we're also happy to hear the voices of our residents on any subject of concern, so don't hesitate to get in touch. We hope this finds you and your loved ones healthy and well, and we look forward to seeing you around Wheeling!

Health Happenings

Community Blood Drive

The Village of Wheeling and the Wheeling Board of Health will host a blood drive from 2–7 p.m. on Wednesday, March 2, at the Village Hall, 2 Community Boulevard.

Appointments are appreciated. To schedule an appointment, visit www.vitalant.org and search by sponsor code ORD0WH98. You can also email Health Officer Serena Ivaldi at sivaldi@wheelingil.gov. Appointments are recommended, but walk-ins are also welcome.

Bring your ID to your appointment and prepare for your donation by eating well and staying hydrated! Masks are required for all donors regardless of vaccination status.

Assist Homebuyer Program

The Village of Wheeling now offers a two-pronged approach to assist homebuyers. The Assist program provides families with funds to pay all or most of their closing costs and down payment, and the mortgage credit certificate (MCC) program reduces the homebuyer's ongoing cost of borrowing.

What is Assist?

Assist is a program that offers individuals and families with 30-year fixed-rate mortgages and offers 3-7% cash assistance on the amount borrowed on a mortgage to qualified homebuyers. The cash assistance may be used to offset some or all of the home loan's down payment and closing costs. Assist minimizes the amount of money you need on hand to purchase your home.

What are Mortgage Credit Certificates?

MCCs are a federally authorized program created as an alternative to tax-exempt housing bonds to reduce effective interest costs for qualifying homebuyers. MCCs allow the homebuyer to qualify for a federal income tax credit equal to a percentage of the interest paid on their home loan each year. MCC holders still qualify for a regular deduction of the remaining interest paid on their home loan.

To find out more about the program, contact Angela Conover at 312.664.5656 or angelaconover@earthlink.net.

POLICE & FIRE DEPARTMENTS

SAFETY TIPS

- » Propane and charcoal BBQ grills should only be used outdoors.
- » The grill should be placed well away from the home, deck railings and out from under eaves and overhanging branches.
- » Keep children and pets at least three feet away from the grill area.
- » Keep your grill clean by removing grease or fat buildup from the grills and in trays below the grill.
- » Never leave your grill unattended.
- » Always make sure your gas grill lid is open before lighting it.

CHARCOAL GRILLS

- » There are several ways to get the charcoal ready to use. Charcoal chimney starters allow you to start the charcoal using newspaper as a fuel.
- » If you use a starter fluid, use only charcoal starter fluid. Never add charcoal fluid or any other flammable liquids to the fire.
- » Keep charcoal fluid out of the reach of children and away from heat sources.
- » There are also electric charcoal starters, which do not use fire. Be sure to use an extension cord for outdoor use.
- » When you are finished grilling, let the coals completely cool before disposing in a metal container.

PROPANE Grills

Check the gas tank hose for leaks before using it for the first time each year. Apply a light soap and water solution to the hose. A propane leak will release bubbles. If your grill has a gas leak, by smell or the soapy bubble test, and there is no flame, turn off both the gas tank and the grill. If the leak stops, get the grill serviced by a professional before using it again. If the leak does not stop, call the fire department. **If you smell gas while cooking, immediately get away from the grill and call the fire department.** Do not move the grill.

If the flame goes out, turn the grill and gas off and wait at least **5 minutes** before re-lighting it.

FACTS

- ❗ July is the peak month for grill fires.
- ❗ Roughly half of the injuries involving grills are thermal burns.

File of Life

File of Life is a simple way to communicate your important emergency medical information with life safety personnel. This is very important if you are unconscious or unable to speak to the emergency responders when they arrive. Without a list of medications, allergies, and medical history, as well as who to call, paramedics are typically forced to look for medicine bottles for answers. The paramedics then try to figure out what the problem might be based on the medicines they find. The File of Life saves valuable time in an emergency situation. The file folds in half, goes into a red plastic envelope with a magnet on the back, and is placed on the refrigerator where paramedics know to look for it. If you are interested in a File of Life, you may stop by Human Services at 1 Community Boulevard or Fire Station 24 on Milwaukee Avenue to obtain one.

The Wheeling Police and Fire Departments are on Social Media
 Wondering what's happening at the Police or Fire Department? Check us out on social media! Find out what special events are coming up, what big cases we are working on, what scams to watch out for, and anything else you need to know about what's happening in the community! We are on Twitter at Wheeling Police and Fire Departments IL (@PoliceWheeling), on Facebook at Wheeling Police and Fire Departments (@wheelingpd), and on Instagram at @wheelingpd.

HUMAN SERVICES DEPARTMENT

Social Services Division

The Social Services Division offers many services to residents of the Village of Wheeling who need assistance, including:

**assistance accessing COVID-19 resources • assessment • case management • crisis intervention
community linkage / information and referral • court advocacy • short-term counseling • tangible and basic needs
victim services • support groups**

The Social Services Division has professional social workers who work closely with the Police and Fire Departments, schools, and community agencies to serve Wheeling residents. If you need assistance, please contact the Human Services Department Social Services Division at 847.459.2606. Offices are located at 1 Community Boulevard, within the Wheeling Police station. The Social Services Division invites you to take advantage of the many services and great information available.

Celebrating National Social Work Month

There are nearly 720,000 social workers in our nation. That number is expected to grow by 12 percent by the end of the decade, making social work one of the fastest-growing professions in the nation, according to the Bureau of Labor Statistics. Social workers have been an integral part of our nation for decades. Social workers played key roles in the Civil Rights and Women's Rights movements and pushed for social programs we now take for granted, including the minimum wage, a 40-hour work week, Social Security, and Medicare.

The time is always right for social work; however, more people are now entering the field because the life-affirming services that social workers provide are needed more than ever. In fact, social workers are everywhere people need help navigating tough life challenges. They contribute to interdisciplinary care teams in schools, hospitals, mental health centers, nonprofits, corporations, and the military, in local, state, and federal government. Many social work professionals also have private consultation practices.

The social work profession has existed for more than a century. It attracts people who have a strong desire to help individuals, families, communities, and our nation overcome issues that prevent them from reaching their full potential. These social workers help in myriad ways.

- » Are you a student who needs athletic shoes to participate in sports, but your parents can't afford to buy them? Talk to your school social worker. They can help you find the resources you need.
- » Do you want a better relationship with your spouse, children, or parents? Talk to a social worker. They can help you find a way to make your connections with each other stronger.
- » Are you suffering from depression, anxiety, or substance-use disorder? A social worker can give you strategies and guidance to surmount mental illness and addiction. Most therapists are social workers.
- » Do you think a child or older adult is suffering from abuse or neglect? Or are you interested in growing your family through foster care and adoption? There are social workers ready to help.

The Village of Wheeling has professional social workers available to all residents of Wheeling for a myriad of services. If you or someone you know would like to speak with one of our social workers, please call the Human Services Department of Wheeling at 847.459.2606. We have social workers available Monday-Friday 8:00 a.m. to 9:00 p.m.

Lunch @ The Center

Lunch at the Center provides nutritionally-balanced meals and socialization for older adults 60+. Meals are served Monday through Friday from 11:30 a.m. to 12:30 p.m. at the Wheeling Park District Community Recreation Center. You may dine in using COVID protocols or you may pick up meals between 9:45 a.m. and 10:15 a.m. Please call 847.459.2606 to verify indoor dining as the situation may change rapidly dependent on community Covid transmission levels.

The suggested donation/contribution is \$5 per meal. No one will be denied services for inability to pay. Contact Dining Coordinator Jesus Delgado at 847.650.0650 to register or with questions.

Reporting Potholes

Certain roadways in Wheeling are not maintained by the Village. Please contact the correct agency below to report potholes on these roadways.

The Illinois Department of Transportation (IDOT)

847.705.4222

Dundee Road, Elmhurst Road, Milwaukee Avenue, McHenry Road, Palatine Road, or Wolf Road (from Manchester north to Milwaukee Avenue and south of Marquardt to Camp McDonald Road).

The Cook County Department of Transportation (CCDTH)

847.827.1164

Lake Cook Road, Schoenbeck Road, Hintz Road, Camp McDonald Road, Buffalo Grove Road, Old Buffalo Grove Road, or Aptakisic.

Yard Waste Collections

Yard waste collections begin on April 1 and continue through November 30 on your regularly-scheduled collection days. Townhouses and condominiums do not have this service.

- Yard waste must be placed in paper bags or in a container clearly marked with a red X (cannot be in plastic bags or cardboard boxes). Bags and containers must not be larger than 32 gallons or exceed 50 pounds. There is no limit to the number of bags or containers.

- All yard waste must be placed at the curb by 6 a.m. the day of collection, but not before 5 p.m. the evening before.

- Brush must be bundled and tied with twine or string. Bundles must not weigh over 50 pounds, exceed four feet in length or two feet in diameter, or contain limbs greater than three inches in diameter. There is no limit to the number of brush bundles.

Storm Drain Grate / Inlet Cleaning

Storm drain grates/inlets are normally located near the edge of streets or in rear yards, collecting water which uses the storm sewer system to ultimately flow into streams, rivers, or lakes. Grates/inlets obstructed with leaves and other debris can deny constant water flow and can cause localized flooding. As snow melt occurs in spring, the Village encourages residents to safely clear storm sewer grates/inlets near their property to avoid local flooding issues. If a grate/inlet is obstructed, residents should rake the debris off of the structure and onto the parkway or into a waste container. If ponding or another concern arises, contact Public Works at 847.279.6900.

Stormwater Runoff Pollution

Stormwater runoff is generated when precipitation from rain and snowmelt flows over land or impervious surfaces and does not percolate into the ground. Stormwater runoff that flows over impervious surfaces such as streets, driveways, concrete areas, and rooftops collects debris, chemicals, sediments, and other pollutants that enter the storm sewer system. The Village storm sewer effluent flows directly into detention basins, creeks, streams, rivers, and lakes, bypassing the partial cleaning typically performed at sanitary sewer treatment plants.

Pollutants that exist in stormwater runoff can include motor oil, antifreeze/transmission fluid, paint, solvents/degreasers, detergents, pet and yard waste, dirt and gravel, trash, pesticides, and fertilizers. Public Works personnel constantly extract some of this waste out of the system for efficient flow. Residents and businesses can take measures to prevent stormwater runoff pollution from entering our storm sewer system:

- Repair vehicle leaks and dispose of used auto fluids at designated drop-off facilities.
- Apply pesticides and fertilizers only as necessary; use organic mulch and reduce application of outside pest controls whenever possible.
- Compost and/or mulch yard waste, and follow local yard waste programs. Do not deposit or leave yard waste in the street.
- Remove and properly dispose of litter and debris from properties, including sidewalks, driveways, and parking lots.
- Remove and properly dispose of construction debris.
- Clean up after pets. Village Municipal Code 7.10 requires removal of pet waste on public and private property.

For additional information on stormwater runoff pollution and prevention measures, please contact the Utility Division at 847.279.6900.

Floods Are No Myth: Be Prepared for the Unexpected

Discounts on flood insurance are just one of many benefits residents enjoy as a result of Wheeling's proactive approach to flood hazard damage reduction. A 44-year member of the National Flood Insurance Program (NFIP), Wheeling has joined a national effort to minimize property damage in cases of flooding and provide affordable flood insurance to all homeowners, whether or not they are located in or near a floodplain. As part of its NFIP commitment, the Village provides a range of information on flooding potential, prevention, safety, and other issues. For more information about the NFIP and flood insurance, call 1.800.427.4661. Copies of the Flood Insurance Rate Maps (FIRMs) can be reviewed at the Village Hall and Indian Trails Public Library.

Local Flood Hazard Potential

The Village's proximity to waterways such as the Des Plaines River, Buffalo Creek, and McDonald Creek raises the hazard of flooding during heavy rains. Standard homeowner's insurance does not cover flooding. Through the 1960s, private rates on flood insurance were prohibitively high, which made it almost impossible to carry flood insurance. The NFIP, formed in 1968, is designed to subsidize the cost of flood insurance to member communities, qualify them to receive disaster relief, and establish minimum national standards to reduce flood losses.

High CRS Rating

One of eight inaugural NFIP communities in Illinois, Wheeling designed programs to exceed minimum standards and optimize benefits to Village residents. In 1992, the NFIP implemented the Community Rating System (CRS) to reward communities that go above and beyond the basic requirements. Effective May 1, 2014, our rating was upgraded to Class 6, which provides a 20% discount on flood insurance policies for properties located within the special flood hazard area. Policies issued for properties outside the special flood hazard area continue to receive a 5% discount. Wheeling continues to be proactive in preventative initiatives, including:

Stream maintenance: Regular inspections of waterways to ensure they are clear of debris and potential obstructions.

Regulating new construction: New buildings in the flood zone must meet requirements for elevation and flood-proofing. Village planners ensure that new developments don't increase flood risk for neighbors in the community.

Keeping residents informed of flood risk and how to minimize impact: Our residents must be aware of the potential for flooding. Tools such as this newsletter enable us to keep residents informed regarding the risk of flooding.

Development Regulated

Development of any type within special flood hazard areas is strictly regulated. In order to construct a building or an addition, perform any grading, or fill any other type of construction in these

areas, an individual must obtain a special "floodplain development permit." This permit is issued in conjunction with other construction permits to assure that the new construction will not be susceptible to flood damage or cause increased flood damage potential to neighboring properties. Floodplain development regulations can be found on the Village's website at www.wheelingil.gov in Title 22 of the Municipal Code (a link to which can be found on the home page) or by contacting the Engineering Division at 847.279.6910.

With flooding a possibility, especially during the spring/summer season, preparation is the best defense. Safeguarding people, protecting buildings, and purchasing flood insurance are keys to defending against floods.

Protect Your Property: To flood-proof a structure, start by elevating or relocating electrical panel boxes, furnaces, water heaters, and washer/dryers to areas least likely to be flooded. Install basement floor drains and interior and exterior backwater valves. Consider erecting interior flood walls around utilities. Move essential items and furniture to the upper floors of your home. Keep materials such as sandbags, plywood, plastic sheeting, and lumber handy for emergency waterproofing. More flood protection information is available from FEMA through the "Floodplain/Flooding Information" link on the home page of our website at www.wheelingil.gov. Information is also available for review at the Indian Trails Public Library.

Personal Safety: During periods of high water, stay out of the basement where breaker boxes and electrical wiring present the risk of shock. If you know high water is imminent, shut off the electricity, gas, and water. Keep your family together and make sure everyone has identification. Move everyone—including pets—to high ground. Rescue crews cannot reach you once the water becomes two feet deep. Don't drive across flooded roads where your vehicle could stall. Flowing water above your knees can generate dangerous currents; avoid walking through it.

Village Monitors Rising Water Levels: The Village monitors rising water levels with strategically placed gauges. Comparing data with historic records, the Village can predict areas of potential flooding. In the event of a flooding situation, Village staff is mobilized to notify people in affected areas. In some situations, notification may be made by phone. Road closure information is available from radio stations.

Call the Engineering Division at 847.279.6910 with any questions about flood risk areas within the Village of Wheeling.

COMMUNITY NEWS & EVENTS

SAVE THE DATE!

~June 25, 2022~

The Village of Wheeling, the City of Prospect Heights, and Chicago Executive Airport are thrilled to announce this year's joint community fireworks event, **Rock 'n' Run the Runway**, will be held at Chicago Executive Airport on Saturday, June 25.

The day will start with a 5K run on the runways of the airport in the morning, and resume in the evening with live music from modern rock cover band Mike & Joe, food trucks, children's entertainment, and of course fireworks at the end of the night.

Visit www.rocknruntherunway.com for more details.

Show us Wheeling through your lens!

The Village is seeking resident photos to be used for the cover of *The Wheeling Circular*. Photos should:

- be taken outdoors and show the season in which they were taken
- not include people
- not include any business signs and/or logos
- be in jpeg, gif, or png format

Please send your photos to fb@wheelingil.gov. Photos chosen for the cover will include a credit to the photographer.

STAY INFORMED AND AWARE REGARDING:

- Missing children or missing persons
- Criminal activity
- Fires
- Drinking water contamination
- Various threats to people, property or the environment
