NO OUTSIDE FOOD OR BEVERAGES

WELCOME TO WHEELING

*President
Patrick Horcher*

From the Desk of President Horcher

I'd like to begin this spring update with thanks to everyone who voted in the April 4 election. Like our partners at the park, library, and school districts, the Village of Wheeling greatly values our citizens' engagement and input. I congratulate all the candidates who prevailed in these contests, especially Trustees Ray Lang, Joe Vito, and Dave Vogel, who will all continue their service on the Village Board. I look forward to continuing to work with them for the betterment of Wheeling.

Thanks and congratulations are also due to Rich Rosen, the recipient of this year's George Hieber Citizenship Award, which the Village Board grants to recognize outstanding contributions to Wheeling. Rich's record of leadership and volunteerism is too extensive to summarize easily, and includes elected service on the boards of the Wheeling Park District and School District 21, as well as valuable work with the Northwest Suburban Interfaith Council, the Wheeling Rotary Club, the Indian Trails Public Library Foundation, Wheeling Township, the Link Together Coalition, and Wheeling Helping Hands, among other organizations. We're deeply grateful to Rich for his ongoing efforts to make Wheeling the best it can be.

Construction season is once again underway, and for the first time in a few years it will not include substantial work on Wolf Road: that major reconstruction is now complete. The Village will be undertaking a number of other capital projects throughout Wheeling, which will include street and sidewalk improvements in several locations, water main replacement in Lakeside Villas, storm sewer repair on Milwaukee Avenue near Chicago Executive Airport, and bicycle path resurfacing in Avalon Sienna, among other improvements. The most notable capital project currently underway is, of course, the construction of a freestanding Fire Station 42 on McHenry Road, which will improve the Fire Department's ability to provide emergency services west of the railroad tracks.

You've probably noticed signs of progress in Wheeling's commercial sector, too. Yu's Mandarin restaurant is now open and operating on South Milwaukee, as is Popeyes on Dundee at Wille, and Chicago Ramen has begun welcoming customers by the Westin hotel. Rosebud Steakhouse continues to move ahead with its plans to open at Uptown 500, and Wheeling Town Center will be hosting a farmers' market on the second Tuesday of each month. Several commercial and residential developments are underway in Wheeling, and they may soon be joined by more that are currently in the concept stage; these include the redevelopments of the former Garden Fresh property on Hintz Road and the former Solex building at Milwaukee and Dundee. We'll provide additional updates on these and other noteworthy topics in the weeks to come.

And of course this message wouldn't be complete without an invitation to attend this year's Rock 'n' Run the Runway events at Chicago Executive Airport on Saturday, June 24! In addition to being an intrinsically enjoyable experience featuring a morning 5K run and an evening featuring food trucks, live music, fireworks, and other entertainment, Rock 'n' Run the Runway provides a unique opportunity to get an up-close look at the airport, which the Village of Wheeling co-owns with the City of Prospect Heights. You can find more information about these events on the cover and on page 10 of this newsletter.

We hope to see you there, and we hope you have a safe and enjoyable summer!

President Horcher and members of the Wheeling Village Board and Plan Commission celebrated at a ribbon-cutting for Okay Dispensary and West Town Bakery. Photo by Roger Mattingly.

2023 Consolidated Election Results

Village Trustee (three elected)

Ray Lang*	33.42%	1,058
Dave Vogel*	34.27%	1,085
Joe Vito*	32.31%	1,023

* Denotes incumbent

As of the printing of this newsletter, these results had not yet been certified by the Cook County Clerk.

Low-Income Household Water Assistance Program (LIHWAP)

The Village of Wheeling now works in conjunction with the Community and Economic Development Association (CEDA) of Cook County to provide low-income households with water and wastewater bill relief.

What is LIHWAP?

LIHWAP was established under the Consolidated Appropriations Act of 2021 and the American Rescue Plan Act of 2021. The program goal is to prevent disconnection and restore drinking water and wastewater services to households and reduce arrearages. LIHWAP can only be accessed once per household for up to \$1,500 for reconnection assistance, disconnection prevention, past-due balances over \$250, disconnection fees, and late fees. Water bill payments will be made directly to the Village of Wheeling by CEDA on behalf of approved and eligible Wheeling households.

Who is eligible for LIHWAP?

Both homeowners and renters can access the program to ease financial stress caused by water bills. To qualify, they must have a household income below 200% of the federal poverty income guidelines, have a past-due balance of at least \$250, or be facing disconnection. The following table summarizes the Gross Income Guidelines for eligible households:

Household Size	30-Day Gross Income
1	\$2,265
2	\$3,052
3	\$3,838
4	\$4,625
5	\$5,412
6	\$6,198
7	\$6,985
8	\$7,324

When Can Community Members Apply for LIHWAP?

The program is already accepting applications and will run through September 30, 2023, or until funds are exhausted, whichever comes first.

How Do Community Members Apply for LIHWAP?

Complete a preapplication online at cedaorg.net/liheap/pre-app or call CEDA's call center at (800)571-CEDA to apply over the phone. Residents can also call one of CEDA's 68 partner intake sites to schedule an intake appointment. Visit cedaorg.net/sites for contact information.

Questions?

Email waterbilling@wheelingil.gov or call 847.459.2607.

Village offices will be closed
Monday, May 29
in honor of Memorial Day.

Waste Management pick-ups will
be delayed by one day.

POLICE & FIRE DEPARTMENTS

TORNADO

Tornado facts:

- Illinois ranks fourth in the United States for the most tornadoes per square mile
- 80 % of tornadoes happen during the day
- Tornadoes have occurred every month of the year at all hours of the day
- It is critical that you monitor the ever-changing weather conditions in Illinois
- Conduct periodic tornado safety drills at home and work
- Maintain an emergency supply kit
- Check the weather forecast before traveling. Postpone plans if severe weather is imminent.

TORNADO WATCH: BE PREPARED!

Tornadoes are possible in and near the watch area. Review and discuss your emergency plans and check supplies and your safe room. Be ready to act quickly if a warning is issued or you suspect a tornado is approaching. Acting early helps to save lives! Watches are issued by the [Storm Prediction Center](#) for counties where tornadoes may occur. The watch area is typically large, covering numerous counties or even states.

TORNADO WARNING: TAKE ACTION!

A tornado has been sighted or indicated by weather radar. There is imminent danger to life and property. Move to an interior room on the lowest floor of a sturdy building. Avoid windows. If in a mobile home, a vehicle, or outdoors, move to the closest substantial shelter and protect yourself from flying debris. Warnings are issued by your [local forecast office](#). Warnings typically encompass a much smaller area (around the size of a city or small county) that may be impacted by a tornado identified by a forecaster on [radar](#) or by a [trained spotter](#)/law enforcement who is watching the storm.

Ready.Illinois.gov

Storm Planning Timeline

A few days out:

If the forecast calls for severe weather in a few days, start preparing now.

- Make sure you have emergency supplies
- Know your safe places
- Have a family communication plan

The day before:

Forecast accuracy begins to improve.

- Adjust plans
- Make sure you can receive weather alerts multiple ways
- Ensure your shelter is clean and accessible.

The day of:

Remain vigilant and aware of any active watches. A warning may be issued at a moment's notice.

- Remind your family of the communication plan.
- Know how to safely evacuate
- Be prepared to act quickly if a warning is issued

Parking Restrictions in Residential Neighborhoods

It is against Village ordinance to park blocking sidewalks between 6:00 a.m and 10:00 p.m.

The Wheeling Police Department would like to remind you that blocking the sidewalk with a parked vehicle makes it dangerous for people who are walking, pushing strollers, or riding bikes on those sidewalks. This includes recreational vehicles (RVs) for which there are more specific rules in addition to it being illegal to block the sidewalk (see below). Please help keep the sidewalks clear for pedestrians and bicyclists in Wheeling.

Recreational Vehicles – Parking and Storage

As warmer weather and camping season are upon us, the Police Department reminds residents who own RVs that there are limits to when and where these vehicles can be parked. RVs exceeding eight feet in width, 22 feet in length, or ten feet in height must be stored at a residential property only inside an enclosed garage or accessory building; vehicles not exceeding these parameters may also be stored in the rear or side yard of a residential property. RVs may be parked on a driveway for a period not to exceed seven days, and only upon the granting of written permission by the Wheeling Police Department. This permission can be sought from the Police Department a total of four times per year.

Refuse and Recycling Guidelines Reminder

- All refuse, recycling, and landscape waste must be placed at the curb for collection no earlier than 5 p.m. the evening before and no later than 6 a.m. the day of a scheduled collection. This includes bulk items or household construction debris as permitted through Waste Management.
- All refuse and recycling must be placed inside designated containers with the lids completely closed for scheduled collections.
- All empty carts and refuse items not collected must be removed before 8 a.m. the day after a scheduled collection. **In residential areas, on days other than collection days, all waste containers along with bulk items or household construction debris shall be kept in the garage or adjacent to the front of a principal structure within the side or rear of any lot.** No containers or waste shall be stored in front of a principal structure or within the front yard area of any single-family property. Code enforcement may be contacted at 847.459.2620.
- If a collection was missed, contact Waste Management directly at 800.796.9696.
- On all other days, carts and bulk waste items shall be kept in the garage or adjacent to a principal structure within the side or rear yard of any lot only.
- Containers of mixed refuse or refuse separately contained in boxes will not be collected.

Bulk Collections

Residents with curbside collection are allowed one (1) large item per week at no additional charge on their regularly scheduled service day. These items are generally too large to fit into a 96-gallon cart but can be lifted by a single person. Acceptable items include certain furniture, mattresses or box springs, bicycles, lawn care equipment (without gasoline or fluids), plumbing fixtures (toilet bowl and tank need to be separated), empty grills (no charcoal, gas cylinders, etc.), and swing sets (disassembled and no longer than five feet). Up to four rolls of bound carpeting can be accepted as one bulk item, but rolls must be tied, less than four feet long, less than two feet in diameter, and weigh no more than 45 lbs.

Annual Hydrant Flushing

The Public Works Utility Division will be flushing hydrants throughout the Village through May 16, weather permitting. During this time, hydrant flushing will occur between the hours of 7 a.m. and 3:30 p.m. and will continue until all portions of the water distribution system have been completed. Signs will be posted throughout the Village while hydrant flushing is underway.

Flushing is an important preventative maintenance process and is undertaken to remove particulate matter and corrosion from the system. Residents may notice slightly lower pressure and discoloration of their water throughout the duration of the program; however, the water will be completely safe to drink. Residents are advised to check the color of the water before beginning laundry to prevent any staining.

Should you have concerns regarding the flushing program, contact the Utility Division at 847.279.6900.

Earth Day

Earth Day is recognized annually on April 22, but protecting our environment and creating a more sustainable future should be an everyday effort. There are simple ways we can contribute to protecting our environment and observing Earth Day every day.

-  Replace incandescent bulbs with Light Emitting Diode (LED) bulbs. LEDs save money, use less energy, last longer, and lower greenhouse gas emissions.
-  Turn off lights when not in a room, and unplug appliances when not in use. Use of a power strip allows multiple items to be turned off simultaneously, saving energy and money.
-  Fix leaky faucets and toilets to reduce water consumption and lowers water costs.
-  Use ecologically-friendly cleaning products. Commercial cleaning solutions often contain chemicals that take longer to biodegrade, polluting the environment after disposal, ultimately ending up in streams and rivers.
-  Reduce the use of plastic products such as shopping bags and water bottles, and instead use re-useable grocery bags and refillable water bottles and coffee mugs, and use a container instead of disposable sandwich bags. Plastics are non-biodegradable, and can release chemicals when in landfills, polluting waterways and threatening wildlife.
-  Reduce paper waste and junk mail by using online payment options or contacting companies to remove your name from a mailing list.
-  Support local growers by visiting farmers' markets. Local growers travel less to sell their products, reducing the carbon footprint caused by transportation emissions. These growers also utilize methods that create less of an environmental impact.

COMMUNITY DEVELOPMENT & PUBLIC WORKS

Residential Document Destruction Event

On Saturday, May 6, the Solid Waste Agency of Cook County (SWANCC) and Village of Wheeling are hosting a document destruction (shredding) recycling event at the Department of Public Works, 77 W. Hintz Road, from 9 a.m. 12 p.m. There is NO ELECTRONIC WASTE COLLECTION.

Residents from Wheeling and other SWANCC communities are eligible to participate. Materials will not be accepted from non-SWANCC residents, or from businesses, schools, or institutions. IDs will be checked for verification of residency, and those persons not from a SWANCC community will be redirected to an exit.

To ensure a successful event, please read the requirements below. If paper is not prepared correctly, you will not be able to participate, and will be asked to exit the event.

- Residents are limited to six file-size boxes or paper grocery bags of “sensitive documents.” Sensitive documents include bank statements, financial planning statements, medical history forms/documents, retired tax records, or forms/documents with personal information.
- Documents must be dry, clean, and loose, i.e. not in binders or folders.
 - Remove all metal clips including paper and binder clips; staples are acceptable.
 - Remove all plastic sleeves, spines, covers, folders, or binders.
- Documents must be contained in the trunk of the vehicle for accessibility (see safety guidelines below).
- NO magazines, newspapers, junk mail/ads/coupons, greeting cards, store receipts, photos, or books.
- NO x-ray photos, personal photos or family albums, photo negatives, plastic credit or gift cards, plastic covers from checkbooks, or similar materials.
- Paper must be free of contamination such as batteries, electronics, medications, sharps, etc. that may pose a health and safety concern to those handling the paper documents.
- Absolutely NO plastic bags!
- Boxes will be returned to residents.

Onsite staff will remove documents from vehicle trunks and place them in totes that will be emptied into a shredding truck where the documents will be cross-shredded, baled, and recycled.

For safety purposes, place documents in your trunk, remain in your vehicle, and be able to unlock the trunk from inside the vehicle to allow staff to unload the items from the trunk. Residents are not allowed to exit vehicles or remain parked onsite to observe documents being shredded. Please hold your pet back if you have your windows open onsite with staff.

The site/event coordinator may refuse service if any resident fails to comply with the safety guidelines.

In anticipation of high participation, plan for delays or longer waiting times during the event. It is recommended that you arrive no later than 11 a.m. to ensure participation. The event will conclude promptly at NOON. Please contact Public Works at 847.279.6900 with any questions. For additional electronic and document destruction events scheduled by SWANCC, visit www.swancc.org or contact 847.724.9205.

Summer Watering Restrictions

To further water conservation efforts, the Village has implemented an even-odd address watering restriction which is in effect from May 15 through September 15.

- Residents with street addresses that end with an **even number** (0, 2, 4, 6, and 8) can only water on even-numbered calendar days.
- Residents with street addresses that end with an **odd number** (1, 3, 5, 7, and 9) can only water on odd-numbered calendar days.
- Watering is prohibited from 12–6 p.m. every day.

The watering of newly-laid sod is permitted at any time and on any day upon the issuance of an appropriate permit, and for a time not to exceed two consecutive weeks. Contact the Department of Community Development with any questions about water

COMMUNITY NEWS & EVENTS

Annual Water Report

The Consumer Confidence Report (CCR) is a document published annually that provides consumers with information about the source and quality of their local drinking water. According to the U.S. Environmental Protection Agency Consumer Confidence Report Rule, every municipal water supplier must provide an annual report by July 1 concerning the previous year's information. The CCR summarizes chemical and bacteriological contaminants, regulation compliances, educational health information, and water system contact information. The CCR can be found at:

<https://www.wheelingil.gov/DocumentCenter/View/853/2022-Annual-Water-Quality-Report-PDF>

If you have any questions regarding the report, please contact Public Works directly at 847.279.6900.

Do you have a Pollinator Garden?

The Rotary Club of Wheeling would like to recognize Wheeling residents who are making an eco-friendly impact on our environment.

Enter your pollinator garden into our contest and win a prize!

Rotary

Contest details are available at www.rotaryclubofwheeling.org

Winners will be announced in the July/August 2023 edition of the Wheeling Circular.

Let's create a buzz in Wheeling!

The flyer is decorated with illustrations of bees, butterflies, and flowers. It features the Rotary logo and a honeycomb pattern at the bottom left.

Parkway Tree Planting

A Village contractor will be planting parkway trees as part of the spring program. To maintain a diverse urban forest, a variety of species are selected. The installation process can cause stress to a newly-planted tree, and the recovery rate and establishment ability can vary per species.

If a tree has been recently planted in the parkway next to your property, the following guidelines should be followed to assist in continued tree growth and smooth transition to its location within the street parkway:

- Watering is a key component to the survival of any newly-planted tree. Each newly-planted parkway tree will receive a slow-release watering bag that holds approximately 15 gallons of water. Filling the bag once a week with water during the first growing season is essential to the tree's ability to establish a healthy root system and overall tree health. Residents are asked to fill these bags weekly until the bags are removed in the fall.
- If mulch is placed at the base of the tree, make sure not to mound the mulch too high against the tree trunk.
- Do not use fertilizers, pesticides, or weed control chemicals to treat the area immediately around the new tree.
- Do not prune the tree.

Please contact Public Works at 847.279.6900 with any questions or concerns.

Brought to you by
the Wheeling
Board of Health

Health Happenings Diabetes Awareness Seminar

The Wheeling Board of Health will be holding a Diabetes Awareness Seminar on Saturday, May 6 at the Indian Trails Library located at 355 Schoenbeck Road in Wheeling. The guest speaker, Steve Freed, is a Board of Health Commissioner, Doctor of Pharmacy, and Certified Diabetes Educator (CDE). The seminar starts at 9:30 a.m., with a question-and-answer period beginning at 10:30 a.m. Complimentary bagels and coffee will be offered.

To reserve your seat please contact Health Officer Serena Ivaldi at 847.499.9048 or by email at sivaldi@wheelingil.gov.

COMMUNITY NEWS & EVENTS

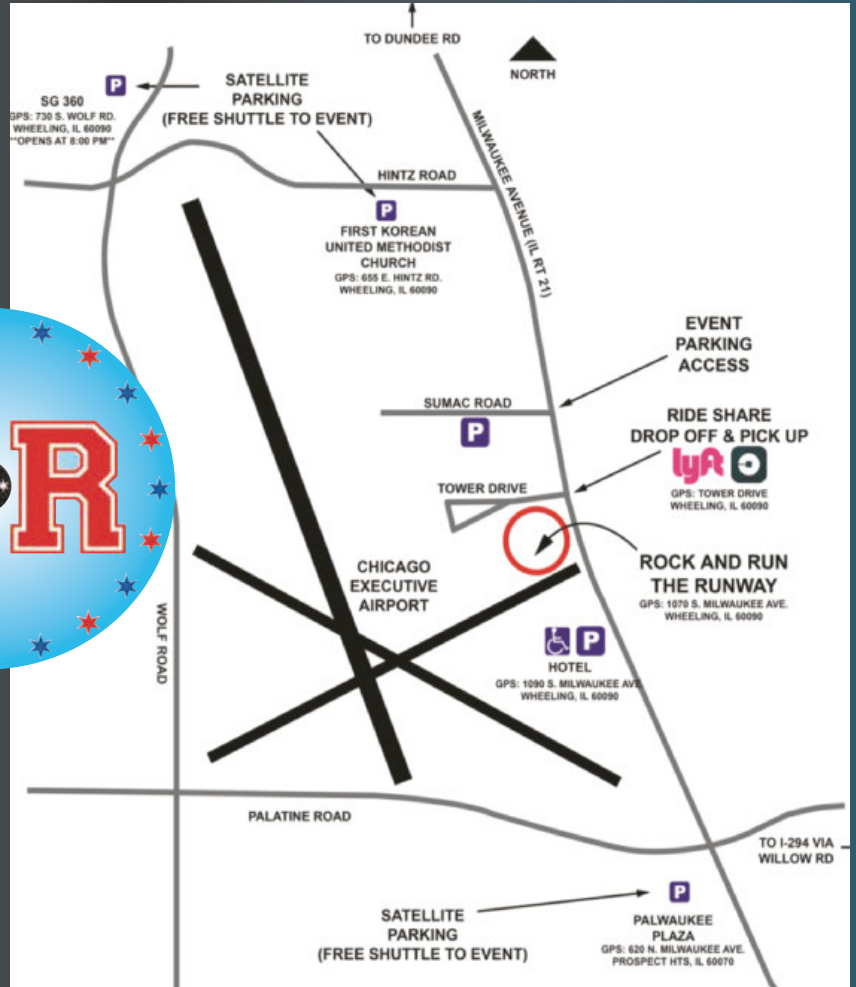

ROCK 'N' RUN THE RUNWAY EVENT INFORMATION

The Village of Wheeling, the City of Prospect Heights, and Chicago Executive Airport are thrilled to bring back the annual joint community fireworks event, Rock 'n' Run the Runway, on June 24!

The day will begin with a 5K run on an airport runway at 8 a.m., and pick back up with food trucks, balloon artists, face painters, a static vehicle display, and live music by *Gone Country*, and *Rok Brigade* who will be doing a show of 80's and 90's cover songs! Evening festivities begin at 5 p.m. Fireworks will take place at approximately 9:15 p.m.

There will be plenty of parking options which include overflow parking lots offering free shuttle buses to and from the event location. Bring your family, lawn chairs, and an appetite! No outside food or drink, coolers, pets, or drones allowed.

Visit www.rocknruntherunway.com for more information.
