THE WHEELING CIRCULAR

January/February 2026

The Wheeling
Village Board & staff
wish you a happy and healthy
New Year!

www.wheelingil.gov

WELCOME TO WHEELING

*President
Patrick Horcher*

From the Desk of President Horcher

On behalf of the Village's officials and staff, I wish you a happy New Year! I think we'll all remember 2025 as a year of interesting challenges, and I believe that these challenges have helped us grow, both as individuals and as a community. I and the Village's other elected officials are grateful for your trust and looking forward to serving

Wheeling for another year.

As weather allows, we're making progress on several projects that will have long-term benefits for our residents. Commuters may have noticed the recent demolition of a vacant house on Dundee Road; this will enable the Village's contractor to access the work area for the upcoming Streambank Stabilization Project—a mostly grant-funded project that will deter erosion along Buffalo Creek and make the north side of Dundee suitable for redevelopment. We'll have more news on this capital project—and on others, including the watermain and sidewalk installation on South Milwaukee Avenue—in the weeks to come.

We'll also provide updates on our planned special census to account for the many new Wheeling residents who've arrived in the past five years. As you'll recall from the last *Wheeling Circular*, the federal government shutdown has delayed this project, but our hope is to confirm the U.S. Census Bureau's timeline soon, and to begin canvassing in the spring, when census workers will have more favorable weather.

We recently celebrated the grand reopening of Cilantro Taco Grill on North Milwaukee—now under new ownership—and the grand opening of the Lenny's Gas N Wash development at the former Garden Fresh site on Hintz Road. It's gratifying to see business growth and investment in the community, and the Village continues to assist and promote economic development when appropriate. In recent weeks we've awarded Restaurant, Entertainment & Retail Build-Out Grants to the Cinergy movie theater in Wheeling Town Center, which is constructing a new entrance and vestibule, and to Sun Berry Orchards & Pastures, a deli and grocery store that's opening in Lynn Plaza. The Village Board also granted approvals to Red Bottle Restaurant for its planned occupancy of a vacant site at Dundee and Milwaukee and conducted a concept review for Âhâra Restaurant, which plans to rehabilitate and occupy the former Tuscany site on South Milwaukee. We look forward to seeing all these businesses flourish in Wheeling.

We'd also like to extend thanks to 57th District State Representative Tracy Katz Muhl for her assistance in securing a \$500,000 grant for the purchase of public safety equipment to be shared between the Villages of Northbrook and Wheeling. The equipment—which includes illuminated message boards, safety barriers for public events, and a firefighting vehicle for use in Forest Preserve properties—will help protect people and property in both communities. Her assistance is much appreciated!

We'll have more to share in the year ahead. Until then, we wish you all the best in 2026!

Gas N Wash, 1900 E. Hintz Road

Cilantro Taco Grill, 749 N. Milwaukee Ave.

Members of the Village Board, Plan Commission, and staff attended ribbon-cuttings for Gas N Wash and Cilantro Taco Grill (under new ownership).

Show us Wheeling through your lens!

The Village is seeking resident photos to be used for the cover of *The Wheeling Circular*. Photos should:

- be taken outdoors and show the season in which they were taken
- not include people
- not include any business signs and/or logos
- be in high resolution jpeg, gif, or png format

Please send your photos to fb@wheelingil.gov. Photos chosen for the cover will include a credit for the photographer.

Village offices will be closed
Thursday, January 1 in
observance of New Year's Day
and
Monday, February 16 in
observance of Presidents' Day.

Waste Management 2026 Holiday Schedule

Holidays will affect regular collection schedules. If your collection is on or after a Waste Management observed holiday, service will be delayed by one day. Below are Waste Management observed holidays:

New Year's Day
Independence Day
Thanksgiving Day

Memorial Day
Labor Day
Christmas Day

POLICE & FIRE DEPARTMENTS

Extreme Cold Weather Information

When extreme cold weather (10 degrees F or lower) is forecast, residents are strongly encouraged to take preparations to minimize risks to both themselves and their homes. This includes emergency supplies for your home and your vehicle. Visit the Village's website at www.wheelingil.gov/419/Winter-Storm-Cold-Weather-Safety-Inforna for a complete list of emergency supplies.

During periods of extreme cold weather you should:

- Remain indoors and only go outside and/or drive if absolutely necessary.
- Monitor TV, radio stations, and local school websites for important information about the weather, school closings, and general safety.
- Raise the temperature within your home several degrees. If electric power is lost you will have added time before it will become uninhabitable due to cold.
- Close all curtains, blinds, and drapery to assist with keeping warmth inside your home.
- Place a dry, rolled towel along the bottom edge of all outside entry doors to minimize cold air drafts.
- Keep cabinet doors underneath sinks open to allow warm air to circulate and slightly run faucets to prevent frozen pipes.
- Shut your water supply off at the water meter if your pipes freeze.
- Eat and drink regularly to maintain a steady body temperature and avoid alcohol and caffeine as they can cause dehydration and mask the effects of cold temperatures.
- Maintain a minimum of 30 inches around portable space heaters and do NOT use kerosene heaters, gas stoves, or barbecue grills indoors as a secondary heating source.

If you must go outside:

- Avoid overexertion as sweating will dampen clothing, making it lose its insulating value.
- Wear a hat, gloves, coat, warm socks, and waterproof / resistant shoes or boots.
- Cover your mouth and avoid talking if possible to prevent drawing cold air into your lungs.
- Monitor yourself and those around you for signs of frostbite and/or hypothermia. Symptoms include loss of feeling, white/pale appearance in extremities, uncontrollable shivering, memory loss, mental confusion, disorientation, incoherence, slurred speech, drowsiness, exhaustion, and/or trembling hands.
- Do not "pre-warm" your vehicle inside your garage as this can cause lethal levels of carbon monoxide to build up inside your garage.
- If your vehicle breaks down on the roadway, try to pull over as far as you can, turn on your vehicle's hazard lights, and hang a piece of brightly colored cloth outside if possible.

If you experience a power outage, do not call 9-1-1 or the Police or Fire Department. If you have questions or to report an outage, call ComEd at 800.344.7661.

Visit the Village's website to view more information on emergency planning and preparedness.

Crime Watch Meetings

Do you want to get the facts about what's going on in Wheeling? Is crime up, down, or the same? Now is the time to find out at a Wheeling Crime Watch meeting. Area crime statistics are reported, citizen concerns are addressed, and methods to resolve these issues are discussed. Meetings end with an informational training topic presented.

Crime Watch meetings are held on the first Wednesday of every even-numbered month in the Village Hall Board room at 7 p.m. unless posted otherwise. All members of the community are invited to participate in these open meetings.

Training Topics

- Defensive driving
- Disaster planning
- Fire safety
- Gang awareness
- Guest speakers
- Holiday safety
- Personal safety
- Phone and international lottery scams
- Tornado safety
- Traffic laws
- Traveler scams
- Winter storm safety

Please call the Crime Prevention Unit at 847.459.2645 with any questions you may have. Sign up for emergency alerts through Everbridge: www.wheelingil.gov/940/Public-Safety-Emergency-Notification-Sys

Snow Season Procedures

Public Works snow and ice responsibilities include roadway de-icing and clearing arterial, collector, and residential roadways, certain sections of public sidewalks, the train station, and Village-owned buildings and properties. Public Works is not responsible for the maintenance of or snow control on county- or state-owned roadways or rights-of-way. These roadways include:

Illinois Department of Transportation (IDOT) 847-705-4222

- Dundee Road (Route 68)
- Milwaukee Avenue (Route 21/45)
- Palatine Road and Palatine frontage
- Elmhurst Road (Route 83)
- McHenry Road (Route 83)
- Wolf Road (South of Marquardt to Camp McDonald Road)

Cook County Highway Department 847-827-1164

- Lake-Cook Road
- Hintz Road
- Buffalo Grove Road
- Wheeling Road (south of Palatine Road)
- Schoenbeck Road
- Camp McDonald Road
- Old Buffalo Grove Road

Residents are advised of the following safety tips during the snow season:

- Stay 100 feet or more behind a snowplow or salt truck.
- When it is safe, shovel snow away from fire hydrants near your property for emergency access.
- Do not place refuse, refuse containers, or any other items in the street.

Vehicle Parking Restrictions

- Do not park on any Village street within eight hours after a snowfall of two inches or more to allow safe and efficient snow and ice control by Public Works.
- Vehicles in violation of this restriction may be towed by the Police Department.
- For additional information, contact the Wheeling Police Department at 847.459.2632.

Sidewalk Requirements

- Residents and property owners are responsible for clearing snow and ice from sidewalks adjoining or adjacent to their property by 10 a.m. the day after a snowfall. Property owners are permitted to spread sand, salt, or other substances made for the purpose of melting snow and ice on sidewalks.
- Residents and property owners shall not deposit snow or ice onto any roadway within the Village; instead, deposit snow and ice onto the parkway.

For additional information, contact Community Development at 847.459.2620.

Buried Hydrants

Heavy snowfall or snow plowed from roadways can bury hydrants, thus making it difficult to find and use them during firefighting.

The Public Works and Fire Departments seek assistance from residents and businesses in uncovering buried hydrants that are closest to their property. In doing so, we ask that snow be removed approximately three feet away from the hydrant in all directions, and a pathway cleared between the hydrant and the nearest roadway. Exercise caution when clearing around the hydrant because of the potential for vehicle traffic nearby. Do not stand in the street and be careful not to slip and fall into the roadway. Contact Public Works with concerns or questions at 847.279.6900.

COMMUNITY DEVELOPMENT & PUBLIC WORKS

Household Hazardous Waste At-Home Collection Program

Wheeling residents can schedule a special collection with Clean Harbors Environmental Services for eligible household hazardous waste from their property's front door, porch, or driveway.

The Solid Waste Agency of Northern Cook County (SWANCC) has partnered with Clean Harbors to provide Wheeling residents with the opportunity to properly dispose of unwanted household hazardous waste during the year. Collections are expected every other month beginning in 2026. The program is for residents with curbside collection only. The next scheduled collection is January 16, 2026.

How Does the Program Work?

The program guidelines are as follows:

1. Residents contact Clean Harbors to request a pickup, either by telephone at 866.466.5060 (Monday through Friday, 8 am – 4 pm) or at <https://form.jotform.com/242978262215158>.
2. Clean Harbors will obtain an inventory from the resident of waste types and quantities to confirm that the materials are accepted in the program and will schedule the collection service based on their current workload and routing.
 - Clean Harbors will also assist the resident in locating alternative outlets for wastes that can be readily managed through other drop-off options (e.g., gasoline and motor oil that can be taken to a service station or repair shop) and for wastes that are not accepted through the program.
3. Clean Harbors will provide preparation and set-out instructions to the resident and mail a heavy clear plastic bag and tie in advance of their collection day to contain their materials. There is a 70 lb. weight limit per collection.

What Does the Program Cost?

The At-Home Collection is free to eligible residents; however, a \$75 charge will be incurred if a cancellation occurs the day of a scheduled collection or if no material is set out at the time the scheduled collection is made.

For more information on this program, please contact SWANCC at 847.724.9205 or Public Works at 847.279.6900.

Move Out Debris

If you are planning to move, please consider all recycling and disposal options prior to throwing items out as garbage. To avoid contributing to the landfill, pollution, and wasted resources, consider donating, selling, or reusing items in good condition.

If you choose to dispose of items as garbage, please plan ahead and follow guidelines that can be found at www.wheelingil.gov/390/Residential. Additionally, all garbage must be bagged and placed inside garbage totes. Do not overload totes; lids must close completely. Overflow or garbage left outside of the totes will not be collected and will require a special pickup. Contact Waste Management in advance for a special pickup at 800.796.9696, which may incur a fee. Any abandoned garbage will be the responsibility of the property owner.

Hazardous waste must be disposed of at a designated facility or through Clean Harbors (see information above). For electronics recycling options, visit www.wheelingil.gov/Electronics.

Electronics Recycling

The State of Illinois prohibits the disposal of electronics in landfills due to certain toxic materials used in the manufacture of these items. The Solid Waste Agency of Northern Cook County (SWANCC) provides a permanent electronic waste drop-off location (free service) for Wheeling and SWANCC member community residents. For a complete list of acceptable items, please visit www.swancc.org.

Glenview Transfer Station

3 Providence Way, Des Plaines, IL 60016, 847.724.9205

Saturdays: 9:00 a.m. — 11:30 a.m. year-round except Saturdays following a holiday

Residents may also recycle electronics and textiles at eWorks Electronics Services Inc., a local business that provides employment opportunities for individuals with disabilities, located at 1480 S. Wolf Road in Wheeling. Please visit eworksesi.org or contact 855.213-8348 for further recycling information or drop-off hours. Charges apply only for televisions.

COMMUNITY NEWS & EVENTS

CENSUS UPDATE

New Timeline for Spring 2026

SPECIAL CENSUS 2025

WHEELING COUNTS

Our census has been rescheduled for Spring 2026 due to delays caused by the government shutdown.

Holiday Tree Collections

Non-artificial holiday trees are collected at residential curbsides by Waste Management during the first two weeks in January at no additional charge. Trees that have decorations or are in stands or plastic bags will not be collected.

Holiday Lights Recycling

Residents may recycle holiday lights—including mini, C7, C9, rope, and LED lights, as well as extension cords of all colors and lengths—at the Department of Public Works, 77 W. Hintz Road, Monday through Friday from 7 a.m. to 3 p.m. until January 30, 2026. Garland, live greens, wreaths, and other non-recyclables are not accepted in this recycling program. Call 847.279.6900 with any questions.

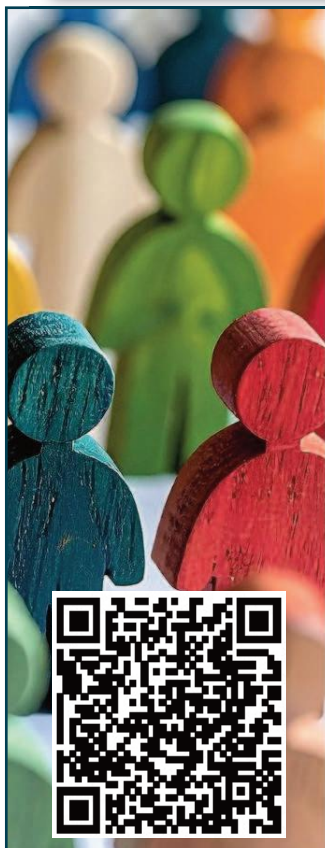

Street Parking After a Snowstorm

With bad weather around the corner, please remember that the Village of Wheeling has an ordinance stating that “it is unlawful to park any motor vehicle on any street within the village at any time within eight hours after a snow fall of two inches or more.”

During big snowstorms, many vehicles are often left parked on the street in violation of the ordinance, preventing the Village snow plows from being able to remove snow and to salt the roadways. Many tickets are issued to the vehicle owners in these instances.

We remind drivers that they cannot park on the street after a snow event of two inches or more so that the snow can be safely removed and the streets salted by the Village’s plows. Please find alternative parking until eight hours after the snowfall has elapsed. Otherwise, parking tickets could be the result.

Please call the non-emergency police number at 847.459.2632 with any questions during a snow event.

COMMUNITY NEWS & EVENTS

2026 Spring and Summer Infrastructure Projects

Each year, the Village plans and budgets for necessary infrastructure projects. Below is a summary of a few of the most notable upcoming projects. For more information on any of these projects or other future work, please call the Public Works Department at 847.279.6900 or visit the Village's website at www.wheelingil.gov/338/Capital-Improvement-Projects.

Sidewalk Replacement Program

The Village continues its ongoing effort to maintain its sidewalks in a safe condition. Annually staff completes a survey of one-fifth of the community sidewalks, and the data collected in these surveys helps determine the repair locations in the upcoming year's program. The focus in 2026 are the sidewalks in the southwest part of the Village. This project is predicted to start and be completed in July.

Asphalt Surface Treatment Program

Pavement rejuvenation maintains asphalt pavement through the reduction of oxidation and ultraviolet light which negatively affect the asphalt. The sealant also reduces the infiltration of moisture under the pavement surface, limiting the occurrence of sub-base upheaval that leads to potholes. Streets that were paved in 2025 will be sealed in 2026 through this program. This project is predicted to start and be completed in June.

Street Improvement Program

This program provides for the resurfacing or, if necessary, the reconstruction of existing pavements according to a five-year plan that is reevaluated and adjusted on an annual basis. The streets to be focused on in 2026 are in the Zelosky's, Wolf Point, Michael's Manor, Woodvale Lake Estates, Avalon-Sienna, New Trend's Brownstone Manor, Polo Run Unit Two, Kingsport Village North III, and McManoway's subdivisions. This project is predicted to start in April and be completed by July.

South Dunhurst Resurfacing

This project consists of resurfacing the roads in the vicinity of Mark Twain Elementary School that were affected by last year's Storm Sewer Project. This project is expected to begin in May and be completed by October.

Water Main Replacement Program

This project consists of installing new water main along Milwaukee Avenue from River Mill to Sumac as well as on Wheeling Road from Hintz to Palatine. Work is predicted to start in April and be completed by October.

Streambank Stabilization Project

This project is on Buffalo Creek / the Wheeling Drainage Ditch between Northgate Parkway and Dundee Road and includes the construction of gabion baskets and other stabilization measures to prevent erosion of the streambank. The Village was awarded an IEPA grant to offset the cost of this project.

Public Works Seasonal Positions

The Department of Public Works has temporary, seasonal positions available during the summer for individuals interested in acquiring experience in the profession. These positions perform diverse duties, with most of the work outdoors and occasional indoor work. Duties include assisting with streets, litter collection, parkway restorations, sign maintenance, water and sewer maintenance, facilities, light clerical, etc. as well as other work assigned. Applicants are required to be 18 years old or older, have a high school diploma or equivalent, successfully pass a mandatory medical exam including drug screening, have a valid Illinois Driver's License, and be able to lift, carry, and handle objects that weigh up to 50 lbs.
