

UTILITY EASEMENT

I, the property owner at _____,
Wheeling, Illinois, am aware that if a fence is installed over an
existing utility easement, I acknowledge the fact that from time to
time the Village of Wheeling and other authorized utilities may
require access to the easement, and further acknowledge that upon
request of authorized Village agents, access will be permitted for
service work to existing utilities within the easement. I also
acknowledge and hold harmless the Village from any damage done to
the fence during any work within the easement.
